

DELUXE HYDRAULIC MANUAL PATIENT LIFT

FREE*SP***:RIT**
Hydraulic Patient Lift

Equipped with a high-performance hydraulic pump, the Free Spirit manual lift offers a cost-effective solution for those who don't need a fully electric lift. The durable reinforced steel frame is dependable and safe and an excellent solution for caregivers looking for a flexible, home-ready patient lift. This lift is easy to maneuver around furniture and equipment.

- High-performance hydraulics gradually lifts and lowers the patient from any position
- Six-point swivel bar with safety clips for secure sling attachment
- Foam covered spreader bar for safe patient handling
- Manual open/close base legs for easier navigation around furniture
- Durable reinforced steel frame for safe, long-term use
- Foam padded safe grip handle for easy maneuverability
- Rear caster brakes for secure and safe handling
- Boom height range: 17" - 61.2"
- Base width range: 38.2" (open) / 22" (closed)
- Base height (clearance): 4.5"
- Base length: 45"
- Durable casters: Front 3" / Rear 4"
